Co-chair, ImPACT Coalition for Future Generations.

Natia Ninoshvili

(Georgia/Czech Republic)
Student, Anglo-American University.
Core Team Leader, Youth Fusion.
Co-convenor, Youth Hotline Campaign: Negotiating Nuclear Risk.

About the Event

On 27 January 2026, the Doomsday Clock will be reset, indicating how close we are to planetary catastrophe from nuclear war, climate change, global war and other existential risks.

At our Jan 30 event we will consider implications of the new Clock setting for Africa and the world, discuss some processes and campaigns to address these issues, highlight the rights and wellbeing of future generations, and amplify the role of youth.

One of the relevant processes in 2026 is implementation of the Pact for the Future, adopted at the UN Summit of the Future.

Isabel Bosman-Burnett

(South Africa)
Researcher, South African Institute of International Affairs
Author: "Why the Doomsday Clock matters to Africa."

Alyn Ware

(New Zealand/Czech Republic)
Global Coordinator, Parliamentarians for Nuclear Nonproliferation & Disarmament
Director, Basel Peace Office

Organized by the Centre for Peacebuilding Organizations (Nigeria).
Cosponsored by Basel Peace Office, PNND, WFM-IGP and Youth Fusion
